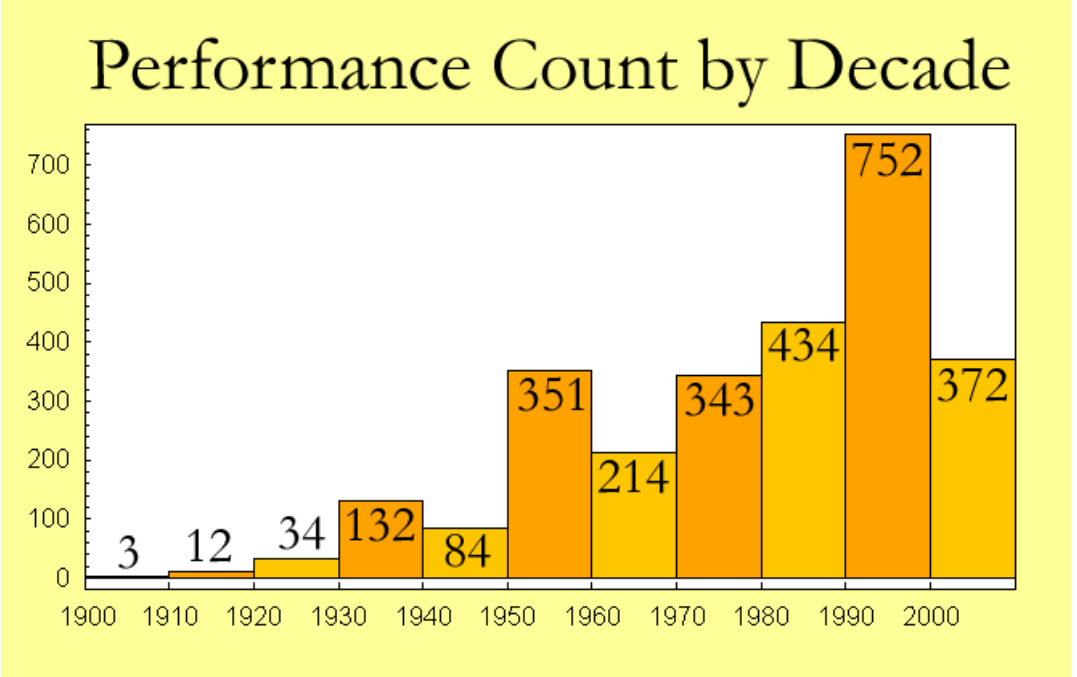
•With Nicholas Cook (Royal Holloway, Univ. of London)

- **2,732 recordings of 49 mazurkas by Frédéric Chopin (1810-1849)**
  = Average of 56 performances/mazurka

- **157 performers**
- **on 209 CDs/records**
- **123 hours of music**

- **Earliest performance from 1902 by Alfred Grünfeld: mazurka 67/4**



Basic Problem

- How to numerically compare different performances?

89 performances of mazurka 17/4

Background

LETTER FROM ENGLAND

FANTASIA FOR PIANO

Joyce Hatto's incredible career.

BY MARK SINGER

2003-2006: ~100 CDs covering a wide range of classical piano repertoire.

TOP CDs OF 2005
Richard Dyer, Boston Globe:

10. Brahms: Piano Music. Joyce Hatto, piano *Concert Artist/Fidelio Recordings*. **Hatto, a British pianist now in her mid-70s, was my great discovery of 2005**. Although illness has kept her off the concert platform for decades, she has made well over 100 CDs surveying virtually the major piano repertory. None of the 50 or so I have heard is disappointing, and the best join the company of the best piano record ever made. A particular favorite is this Brahms volume that includes the "Paganini" Variations.

(Matti Raekallio)

January 2006, *Gramophone*, Jeremy Nicholas:

"the world's unrivaled authority on classical music since 1923"

2007:
- 80 CDs identified in whole or part from other commercial CDs
- 90 pianists represented on Hatto CDs.

  - 1993 Hatto: bars 1-16 repeated
  - 2005 Hatto: bars 1-16 not repeated

- Concert Artist mischief occurring since at least 1993, not 2002…

Cortot Mazurkas

http://www.idilbiret.org/ENG/IBe13.htm

"A most important happening during this period [*c*1990] was the discovery in succession of some extraordinary Chopin recordings Biret had not known about by three great pianists; performances which greatly inspired her. First came the complete **51 Mazurkas by Alfred Cortot on three cassettes bought privately in the UK**. These were recorded by Cortot in the late 1950s and never released for unknown reasons."
